

SAED AYMAN

COMPUTER ENGINEER

Zarqa, Zarqa Governorate, Jordan | 797110803 | saymandrav@gmail.com

Personal Details:

Jordanian | 1999/2/6

PROFILE

Computer Engineer and full-stack web developer with 3+ years of hands-on experience building scalable web applications and integrations. Proficient in Angular, TypeScript, Node.js/Express, MongoDB, Socket.io, and cloud object storage; experienced in API design, performance-focused refactoring, ERP integrations, and a certified NPHIES implementation. Self-directed problem-solver and former instructor who turns documentation into production systems, mentors teammates, and delivers client-facing products from prototype to deployment.

PROFESSIONAL EXPERIENCE

Software Engineer, SeveralBrands

Jul 2025 to Present

Amman - USA

- Frontend Engineer specializing in data-driven dashboards, multi-tenant platforms, and performance-optimized web applications.
- Built scalable reporting systems using React and Vue, integrating Elasticsearch for advanced analytics and report generation.
- Integrated and managed REST APIs and GraphQL services, handling data fetching, caching strategies, and state synchronization.
- Implemented Role-Based Access Control (RBAC) policies on the frontend to secure pages, manage user permissions, and enforce access rules across multi-tenant systems.
- Architected multi-domain Next.js applications with strong focus on SEO, Core Web Vitals, and performance optimization.
- Contributed to monorepo-based CRM dashboards, designing reusable components and scalable frontend systems for multiple clients.
- Strong focus on clean architecture, system design, and delivering high-performance user experiences.

Software Engineer, NIXPEND COMAPNY

Aug 2022 to Jul 2025

Amman

- Successfully integrated the National Platform for Health Information Exchange System (NPHIES) APIs into our system, meeting rigorous compliance standards and obtaining company certification.
- Directed significant refactoring efforts to enhance the overall codebase and improve the efficiency of various modules within the application.
- Managed seamless integration of the healthcare app with a leading enterprise resource planning (ERP) system, focusing on efficient data storage and processing.
- Developed APIs for multiple modules within the application, fostering a cohesive and interconnected system.
- Played a pivotal role in the creation of a client-facing application, overseeing API integrations and leading successful implementations.

- Designed and developed the official company website, creating an engaging online presence to showcase services and products.

Web Developer, Eureka Tech Academy

Apr 2022 to Jul 2022

- Conducted interactive web development classes for students, focusing on building a strong foundation in programming.
- Instructed students on the fundamentals of web development, including HTML, CSS, and JavaScript, progressing to more advanced topics.
- Taught version control using Git, emphasizing best practices for collaborative coding and project management.
- Guided students in deploying their web applications on platforms such as GitHub, Netlify, and Heroku.
- Introduced backend development using Node.js and Express, including integration with MongoDB via Mongoose and managing database clusters.
- Instructed students on front-end frameworks such as Angular, React, and Vue.js, providing a comprehensive understanding of modern web development.
- Created and administered examinations to assess students' understanding of the material and track their progress.

EDUCATION

Hashemite university

Jan 2022

Bachelor of Computer engineering

The description of the education

AREAS OF EXPERTISE

Reactjs	Nextjs	Vuejs	Angular
Node js	Express framework	Bootstrap	Ionic
Rxjs	JavaScript	Postman	Swagger
TypeScript	Socket io	Cloud storage Services like: S3 object storage , Google object storage , and oracle object storage	Linux (Ubuntu)
Databases: Mongoddb , Mysql(MariaDb)	ORM tools: mongoose , prisma	Version Control tools like: Git , Github , gitlab , azure devops	Nuxtjs
Elastic Search Api Integrations	Monorepo GCP	Rest API	Graph QL

LANGUAGES

Arabic: First Language, English: Advanced C1
